Montebello Water Filtration Plant 2 Reservoir -- Baltimore City, District 2. The proposed project involves the design and construction of covered finished water reservoir with associated piping, valves, controls and appurtenances to replace the existing uncovered reservoir. The project also includes improvements to the maintenance shop building and other minor improvements at the Montebello Water Filtration Plant.		\$6,000,000		
The proposed project entails the replacement of high flow toilets, urinals, faucets, and any other fixture with low flow fixtures in municipal buildings in Baltimore City, such as the Abel Wolman Bldg, City Hall, Courthouses, Police Headquarters, Fire Stations, Libraries, etc. The proposed project is intended to provide both water conservation and energy saving measures by reducing the total amount of cold and hot water used.--Baltimore City, District 2		\$2,527,900
